Prof. Benjamin Fung
Faculty of Arts

Thank a Prof

Re: 2024/2025 Thank a Prof Program

Remercie ton prof

Dear Prof. Fung,

Congratulations! A student has thanked you in our Thank a Prof program. Teaching and Learning Services (TLS) developed this initiative to provide students with a way to thank professors who have made a difference, big or small, in their lives.

You were thanked for the following reasons:

I write this letter to express my heartfelt gratitude for his inspiring teaching throughout the data mining course, it has been one of the best learning experience of my master program. Back in high-school at home, I was often discouraged in learning more about math and physics due to the intense pressure from the teachers. However, your patient and approachable teaching style boosted my confidence in learning STEM subjects, ignited my interests in learning more about data science.

Feel free to share this student's recognition of the impact of your teaching with your unit head at an appropriate time, such as in an annual report or other relevant discussion. Please note that we will be posting the names of all professors recognized on the [Thank a Prof website](#). If you prefer that your name not appear, please email tls@mcgill.ca by **May 16, 2025**.

Let me take this opportunity to thank you for your ongoing contributions to student learning at McGill. If you have any questions regarding teaching and learning or about the Thank a Prof program, please do not hesitate to contact us at tls@mcgill.ca or visit the [Teaching and Learning Services website](#).

Once again, congratulations on making a difference.

Best regards,

Carolyn Samuel, PhD
Associate Director, Faculty and Teaching Development
